

Asavela Mzilikazi

Analyst Developer

Summary

I currently work as an Analyst Developer at Achievement Awards Group where I am part of a dynamic, agile team, creating web applications, APIs and working on existing systems for both clients and internal use. I am a self-motivated individual with great organisational skills and a passion for the web and technologies. I can work well under little supervision and am a fast learner. I would like to involve myself with a company that would allow me to expand my skill set in web development and front-end application development and to build useful software to help people and organisations.
